Quick Start Guide for New Motor Carriers

Six habits that get new authorities approved, loaded and paid faster.

01 · Introduce yourself the right way

Call the carrier sales line, give your company name, MC/DOT number, equipment type, home base and preferred lanes in under 30 seconds. Follow up the same day by email with your packet attached.

03 · Get set up fast

Keep your FMCSA, SAFER and onboarding profiles (e.g. Highway, RMIS, Carrier411) current. Ask each broker which portal they use and complete it before you call about a load.

05 · Read every rate confirmation

Verify pickup/delivery times, weight, commodity, accessorials and payment terms before signing. Send the signed rate con to the rate con or dispatch address listed in this directory.

02 · Have your broker packet ready

One PDF containing: W-9, MC authority letter, certificate of insurance (broker listed as certificate holder), signed carrier profile, NOA/factoring letter if applicable, and banking info on letterhead.

04 · Negotiate with numbers

Know your cost per mile, including deadhead. Counter with a specific all-in rate, ask about detention, layover and TONU terms, and never accept a load you cannot run profitably.

06 · Invoice cleanly, get paid on time

Submit the signed rate con, clean BOL/POD and invoice to the invoicing address the same day you deliver. Reference the load number in the subject line.

How to use this directory

Brokers are listed alphabetically. Each entry shows the office address, direct phone numbers, named contacts, and emails grouped by purpose: **Dispatch / Load Docs**, **Rate Con**, **Invoicing / AP** and **Direct Contact**. "Verified" shows the most recent date the contact appeared on actual broker paperwork. Contacts change — always confirm details and check broker authority on FMCSA before hauling.
